

Wednesday 17th August

Dear Parents,

Grade 3 will start their new unit on Monday 22nd August. It is a three week unit which focuses on the theme of water entitled 'Clean Water - Dirty Water'.

This unit of work is part of the International Primary Curriculum and sets out very clearly what children will learn including the learning goals. During this unit we will be focusing on Geography, Science, ICT, Technology, Society and International aspects of water quality.

Throughout this unit we will be reading, writing, researching, recording, illustrating and creating projects individually or in groups. In addition to the whole school trip on Wednesday 24th August I hope we can go on another class day trip related to the unit, I will inform you of the date in advance.

Do you have any related books on water, the ocean, rain, pollution? If you are willing to share them with the class for the duration of the unit then send them into school! We will take good care of them! 😊

Thanks to those who have already handed in the PTA's recommended 200kr for the class fund, you can give it to me after school or through the contact book. I hope you have all received the information letter about pizza. There is also a copy on the website.

I look forward to seeing you all on 6th September at 6pm in the canteen for the Parent Information Evening. See the letter on the website for more information. If you have any questions or concerns then pop by after school or write a note in the contact book.

Regards,

Siobhán Murrin
