

Trip to Experimentarium

09.01.012

Dear Grade 7' Parents,

Grade 7 is currently learning about Body Systems in Science class. We have planned a trip to **Experimentarium** on **Wednesday 25th January**. The students will attend a two hour workshop; first they will attend a lecture by an expert, and thereafter they will dissect a sheep's heart and lungs. They will learn the anatomy of the organs, and the effect of smoking on the lungs.

The workshop will cost DKK 43 per student. Please send this money with your child before the trip. The school will pay for the travelling expenses and entrance fee to the Experimentarium. The students should bring their own lunch and drinks. Michelle and I will be accompanying the students.

The students need to be at the school at their usual time, at 8:55AM. Our workshop is scheduled from 11-13:30 PM. After the trip the students are free to go home. Please write in your child's contact book where you would like your child to be dismissed – Hellerup station, Kokkedal station, a station on the way or back at school.

Thanks for your co-operation.

Sincerely yours,

Archana & Michelle
